

REMARKS

Applicants acknowledge that amendments after payment of the issue fee are not permitted as a "right" without withdrawal of the application from issue. However, this amendment is submitted herein for the convenience of the Commissioner of Patents/Office of Patent Publications (PUBS), since it contains formal corrections without changing the scope of the claims. According to MPEP 714.16 (d) III, PUBS has the authority to waive the requirements of 37 CFR 1.312 and accept an amendment filed after payment of the issue fee. Applicant respectfully requests that amendment to the Related Application Data at the beginning of the specification be entered before issuance of the above-identified application.

The Related Application Data paragraph of the specification has been amended to include continuation data to application serial No. 09/430,117, which was previously claimed on December 1, 2003 via Application Data Sheet, and to include serial numbers of applications incorporated by reference that were previously identified by their titles and attorney docket numbers respectively.

If, the Office of Publications has any questions or comments regarding this communication, please contact the undersigned at the below-listed number.

Respectfully submitted,
Vista IP Law Group LLP
